ZAKŁADY CHEMICZNE W SZCZECINIE

Szczecin, 2<sup>nd</sup> July, 2019 r.

### A letter of recommendation

Between 2014–2019 the company AIUT Sp. z o.o. with its headquarter in Gliwice has successfully completed tasks related to the modernization of the fuel terminal and the construction of car-tanker refills at our facility in Szczecin. The tasks included in particular:

- developing a technical concept;
- development of a multi-discipline construction project along with submitting the documentation for a building permit;
- development of a multi-discipline executive project;
- extensive deliveries – mechanical, electrical and I&C industries;
- extensive execution of installations – mechanical, electrical and I&C industries;
- implementation and launch of the software and visualization for control systems of technological installations;
- assessment of compliance of the delivered measurement lines according to module F with the Inspector of the Regional Office of Measures (OUM)
- development and implementation of the aTas management system along with the support for electronic data exchange with the SAP system of a strategic partner of the Baltchem S.A. company;
- compilation of as-built and acceptance documentation.

The Contractor was responsible for providing all the materials and workforce required for the proper accomplishment of the task, as well as the coordination of works with its subcontractors.

Design, delivery, assembly and commissioning services provided by AIUT were carried out in accordance with the standards of Baltchem S.A. and completely met the investor's expectations. The high quality of works confirmed the Contractor's professionalism. In addition, AIUT cooperates willingly and has a flexible approach towards individual customer requirements and needs.

Regarding all the facts above, we state with all responsibility that AIUT is a technically competent, responsible and recommendable company as the Contractor of such projects.
